3 April 2014

Dear Doctor,

**World Health Day 2014
Publicity and Public Education Campaign
“Beware of stings - protect ourselves from vector-borne diseases”**

I am writing to invite you to join us in our campaign for World Health Day (WHD) 2014.

WHD is celebrated on 7 April to mark the anniversary of the founding of the World Health Organization in 1948. Each year, a theme is selected to highlight a priority area of public health concern in the world. The theme for this year is vector-borne diseases.

More than half of the world's population is at risk of vector-borne diseases, causing more than 1 million deaths annually. More than 2.5 billion people in over 100 countries are at risk of contracting dengue fever alone. Malaria causes more than 600 000 deaths every year globally. With globalisation of trade and travel, Hong Kong is under the threat of various vector-borne diseases, including dengue fever, Japanese encephalitis and malaria. Most dengue fever cases are imported and mainly coming from Southeast Asian countries such as Indonesia, Thailand and the Philippines. For Japanese encephalitis, we have both imported and local cases with two local cases reported last year. For malaria, majority of the cases were imported in the past ten years with the last local indigenous case reported in 1998. Other than mosquito-borne diseases, we have 350 cases of scrub typhus and spotted fever in the past ten years with most cases acquiring the infection locally and had exposure history to vegetated areas in Hong Kong. Some of these cases also developed serious complications. Many of these diseases are, however, preventable through simple protective measures.

*We build a healthy Hong Kong and
aspire to be an internationally renowned public health authority*

To echo World Health Day 2014, the Department of Health launched a territory-wide publicity and public education campaign with various government bureaux/ departments and supporting organisations today. The slogan of the Campaign is “Beware of stings - protect ourselves from vector-borne diseases”. The Campaign aims to raise awareness of the general public about the threat posed by vectors and vector-borne diseases and to stimulate families and communities to take the following actions:

- Protect ourselves from vectors and vector-borne diseases while at home and when travelling, and
- Prevent vector proliferation.

The Campaign will only be possible with your active support and assistance in disseminating the health messages to your clients during clinical encounters, and in encouraging preventive measures to protect themselves against vectors and vector-borne diseases.

A thematic miniweb on the WHD 2014 can be found on the Centre for Health Protection website at <http://www.chp.gov.hk/whd>. The miniweb provides a spectrum of educational resources for health promotion partners and members of the public. In particular, five new videos on the prevention of vector-borne diseases, each about one-minute long, have been developed. If you are interested to get copies of the DVD or other health educational materials, please fill in the request form and send back to us via fax, mail or email (Annex).

Let us work together for the wellness of the public and thank you again for your support in advance.

Yours sincerely,

(Dr Anne FUNG)
for Director of Health

Request Form for Publicity and Health Education Materials on Vector-borne Diseases

有關傳病媒介疾病的宣傳及健康教育素材索取表格

To echo the World Health Day (WHD) 2014 with the theme of Vector-borne Diseases, a list of relevant publicity and health education materials is prepared for wider distribution.

We may arrange delivery of **a small quantity** (below 1 kg, which approximates the weight of 25 A2 posters OR 100 pamphlets) of the publicity and health education materials by post during April and May 2014. Should such service be required, please submit the completed request form to the **Central Health Education Unit of the Department of Health** via post, fax or email. If you would like to collect the materials in person, please put a tick 「☑」 in the appropriate box to indicate your choice of office for collection and return the completed form by post, fax or email to the **collection office chosen**.

為響應 2014 年以傳病媒介疾病為主題的世界衛生日，衛生署準備了一系列相關的宣傳及健康教育素材以供派發。

我們可於 2014 年 4 至 5 月期間安排郵寄少量(不超過 1 千克，相等於 25 張 A2 海報或 100 張單張)宣傳及健康教育素材。如需這項服務，請把填妥的索取表格以郵寄、傳真或電郵方式交回衛生署中央健康教育組。如欲親身領取素材，請在適當空格內加上「☑」以選擇領取素材的辦事處，並把填妥的表格以郵寄、傳真或電郵方式交回所選的領取素材辦事處。

| Mode of Collection 領取方法 | | Postal and Email Addresses of Collection Office 領取素材辦事處地址及電郵 | Tel No. 電話號碼 | Fax No. 傳真號碼 |
